ABSTRACT

The resource guide provides a listing of resources available in Ohio for the individual with developmental disabilities (autism, cerebral palsy, epilepsy, and/or mental retardation). An introductory chapter briefly describes federal, state, county, and private agencies and services; clinic and health services; community residential alternatives; and insurance. Service listings arranged alphabetically according the geographic location make up the bulk of the document. For each of Ohio's 88 counties in the 12 service districts, names and addresses of services are listed for the following: Social Security Administration, Department of Education, Department of Mental Health and Mental Retardation, Bureau of Employment Services, Rehabilitations Services Commission, County Board of Mental Retardation, Epilepsy Program, Association for Retarded Citizens, Ohio Society for Autistic Children, Personal Advocacy Program, United Cerebral Palsy chapter, Public Health Department, Medical Specialists, Maternity Clinic Services, Dental Care, Licensed Nursing Homes, and Homes Licensed by the Division of Mental Retardation and Developmental Disabilities. (SBH)

Documents acquired by ERIC include many informal unpublished materials not available from other sources. ERIC makes every effort to obtain the best copy available. Nevertheless, items of marginal reproducibility are often encountered and this affects the quality of the microfiche and hardcopy reproductions ERIC makes available via the ERIC Document Reproduction Service (EDRS). EDRS is not responsible for the quality of the original document. Reproductions supplied by EDRS are the best that can be made from the original.

Would like to extend a special recognition to

Betsy Packard

for her patience and organizational abilities
in designing and organizing this Second Edition of

A RESOURCE GUIDE OF SERVICES IN OHIO

FOR PERSONS WITH A DEVELOPMENTAL DISABILITY

We wish her continued success in serving the
Developmentally Disabled Citizens.

PREFACE

In August, 1976, the Second Edition of A Resource Guide of Services in Ohio for Persons with a Developmental Disability was completed. The format outline, as well as much of the information, differs from the First Edition (October, 1973). We have provided herein a new listing of providers and services for Ohio's developmentally disabled citizens.

This resource guide was prepared to assist persons with developmental disabilities, their parents, guardians, and social service agencies in becoming more knowledgeable about the services available in Ohio.

The guide is not intended to be an evaluation or endorsement of the services, but is only a listing for your use and information.

This guide is organized to help the reader locate the initial place and person to contact for a service. Rather than presenting the services separately as chapters as in the First Edition, this edition presents the information by geographical areas. The areas of organization are based upon the State of Ohio's Service Districts, and within each District, by county. Therefore, please consult the map of Ohio on page vi to determine the District to which you should refer. Then turn to that District chapter, and the services within each county are separately listed.

Services listed are limited to those which have been identified as available to persons with a developmental disability: autism, cerebral palsy, epilepsy, and/or mental retardation. It is beyond the scope of this project to attempt to list all of the services available in every community.

Due to changes in the services available and the administration of those services, this guide will be revised periodically to reflect such changes, as well as to incorporate suggestions made by the persons using the guide.

This guide is presented with every intention that it will be a valuable tool for the expansion and use of services; our primary intention has been that it will reduce the frustration and belaborment we have observed in persons trying to locate services specific to the needs of the developmentally disabled citizens of Ohio.

Robert Knable
Robert Knable, Director
Residential Services

ACKNOWLEDGMENTS

This Guide is the result of the cooperation of many developmentally disabled citizens, parents, and agencies, all of whom are striving for the enhancement of residential services throughout the State of Ohio.

We would like to thank the following persons and agencies for their willing cooperation in providing information for the Guide:

The affiliate organizations of Developmental Disabilities Resources, Inc.: The Ohio Association for Retarded Citizens, Cindy Kratz; United Cerebral Palsy of Ohio, Inc., Edward S. Lippitt, Executive Director, and his office staff; The Ohio Society for Autistic Children, especially Marilyn Pickett; and The Epilepsy Association of Ohio, Ronald J. Cutter, Executive Director, and his office staff.

The Ohio Society for Crippled Children & Adults, Inc., Columbus office, particularly Carl Brunner and Susan Beauvais.

Community Coordinated Child Care of Columbus.

Social Security Administration, Central Information in Columbus.

The Ohio Department of Mental Health and Mental Retardation, Division of Mental Retardation and Developmental Disabilities, especially Bob Gibson, Licensure office, and Sally Ryan, County Boards of Mental Health and Mental Retardation.

The Ohio Department of Health: Cathy Peppi, Crippled Children's Services; Margaret Maxwell, Local Services; Sue Boelcskevy and Esther Corman, Maternal and Child Health Projects; and the Communicative and Sensory Disorders Unit, Division of Maternal and Child Health.

The Maternity and Infant Care Projects of Cuyahoga County, Mr. Norm Stolz, Administrator.

The Ohio Bureau of Employment Services, Public Information Office, Stephanie Peck.

Developmental Disabilities Resources, Inc.: Robert Knable, Director of Residential Services and Executive Director; Charles E. Kunkel, Technical Consultant for Residential Services, supervising the progress of this volume; and Shirley Baker, providing information on Personal Advocacy programs.

DESCRIPTIONS OF RESOURCES

The local community can offer a person with a developmental disability a great deal of help and encouragement through specialized programs and agencies established by public and private, federal, state and local agencies. These services may help the individual receive medical assistance, dental care, financial aid, rehabilitation, education, job-skill training, and job placement.

This section briefly describes the federal, state and local programs providing service to the developmentally disabled throughout the State of Ohio.

The following sections list where these programs and services are provided by agencies which serve persons with developmental disabilities: autism, cerebral palsy, epilepsy, and/or mental retardation.

FEDERAL AGENCIES AND SERVICES

SOCIAL SECURITY ADMINISTRATION

This federal agency administers two programs which provide benefits and services. The first is the Social Security Insurance program which has been available for many years. The second is the Supplemental Security Income program. This program is relatively new and should be explored as a major resource to provide financial maintenance for persons with a developmental disability.

Social Security Insurance Benefits

If a parent of a developmentally disabled individual is receiving social security, old-age or disability insurance benefits, the child, regardless of age, may also receive benefits. The child is also eligible if a parent, who is deceased, worked long enough under social security to have survivor's benefits.

To receive monthly benefits as a disabled child, the son or daughter of an insured worker must:

1. Have been continuously disabled before reaching age 22.
2. Have a disability which makes the disabled child unable to engage in any substantial gainful activity as a result of a physical or mental condition which is expected to continue for 12 months.
3. Be unmarried when application is filed.
4. Be dependent upon a parent, step-parent, or adopting parent who is receiving social security, old-age, or disability insurance benefits.

If a disabled child has been receiving benefits prior to age eighteen and is approaching his (her) eighteenth birthday, contact should be made with the local social security office for verification that the child is permanently and totally disabled. If this is not done, benefits will be discontinued at age eighteen and will not be reinstituted until the disability is verified.

If a permanently and totally disabled person, receiving social security benefits from a parent prior to age twenty-four, works six quarters out of twelve and earns a gross income of $50.00 during each of those six quarters, he (she) has earned their own social security insurance status. The local social security office should be contacted for a determination if it would be an advantage to apply under their own account for benefits. If the disabled person is older than twenty-four, they must earn $50.00 per quarter for twenty of forty quarters to have social security insurance status.

Supplemental Security Income (SSI)

The federal Supplemental Security Income (SSI) Program became effective on January 1, 1974, and is administered by the Social Security Administration. It replaces the programs of Aid to the Aged, Blind, and Disabled formerly administered by the Department of Public Welfare.

SSI is part of a comprehensive strategy to help the aged, blind, and disabled through a Federal-State partnership. It is the first federally administered assistance program which provides a basic income for these groups of people.

Eligibility requirements for adults include:

1. A physical or mental impairment which prevents a person from doing any substantial work and which is expected to last at least 12 months or result in death. (Some mentally retarded and developmentally disabled are included in this category, and there is no minimum age requirement).

2. The person must be a citizen or lawfully-admitted alien.

3. The person must have U. S. residence.

4. Disabled persons must accept vocational rehabilitation.

Eligibility requirements for children include:

1. The person is not married or head of a household.

2. The person is under 18 (or under 22 if a student regularly attending a school, college or university or a course of vocational or technical training to prepare for gainful employment).

3. The person meets the SSI program definition of disability.

A resident of a public institution is basically not eligible for benefits. However, if the resident is in an institution where his care is paid for out of Title XIX (Medicaid) funds, then he can receive a benefit amount for spending money each month.

Contact your local social security office for further information regarding Social Security Insurance Benefits or the Supplemental Security Income Program. Please note that some of the offices listed serve more than one county and may serve counties in more than one district.

STATE AGENCIES AND SERVICES

OHIO DEPARTMENT OF EDUCATION

What are the state requirements for entrance into a public school's special education class? What kinds of classes are offered for the developmentally disabled child in our schools, and what if my child cannot physically attend? Can my child be legally dismissed from school, and what may I do about it if he is? These are questions that many parents have asked. We hope to offer some answers by relating the standards set forth by the Spcial Education Division, Ohio Department of Education for programs which include school-aged developmentally disabled persons. Copies of *Program Standards for Special Education* may be obtained free of charge from the Ohio Department of Education.

Eligibility for Special Education Classes

A child who meets the following requirements shall be eligible for a special education class for educable mentally retarded children in the public schools:

1. Is of legal school age.
2. Is capable of profiting substantially from instruction as determined by an evaluation administered by a qualified psychologist using multi-factored assessment procedures.
3. Is in the general intelligence range of 50 through 80, as determined through an individual examination by a qualified school psychologist.
4. Cannot meet the acedemic and social behavior expectations of regular classroom programs in his school due to the significant performance deficit in the basic educational areas as determined through an educational assessment that includes standardized tests and classroom observational data, showing a need for a modified educational program.

A child who meets the following requirements shall be eligible for a special education unit for crippled children:

1. Is of legal school age.
2. Is capable of profiting substantially from instruction as determined through a multi-factored assessment procedure administered by a qualified psychologist having experience in evaluating crippled children.
3. A current medical report, indicating that a congenital or acquired physical disability will prevent successful functioning in a regular classroom, from a licensed physician presently treating a crippling condition shall be required

for placement in approved special education units for crippled children.

4. Medical consultation shall be encouraged on a continuing basis especially when school authorities feel that there has been a change in a child's behavior or educational function or when new symptoms are detected.

Work-Study Program in the Public Schools

The Work-Study Program is an educational program in the public high schools. In the school setting the student is helped to develop and demonstrate certain work-skills and habits before being placed in a community job situation. The time that the student trainee spends in employment during the school day is regarded as time spent in school.

This program offers an opportunity for the student to receive practical work training under school supervision with the result, in most cases, of helping him make an effective start as an adult. The student's interests, aptitudes, and attitudes are carefully evaluated to help determine appropriate job placement, as well as training. He will receive continuous occupational guidance, evaluation, credit towards graduation, and wages measured by his ability to perform on the job.

He may be eligible for such training if enrolled in a high school special education class.

Home Instruction

If, in any school district, there are any physically or emotionally handicapped children not able, even with the help of transportation, to be assembled in a school, then home instruction may be provided for them. Upon direction of the State Board of Education, a board of education shall arrange for the home teaching of any such handicapped child, or reimbursement for home instruction or telephone instruction services may be approved for children who are:

1. Physically unable to attend regular classes or crippled classes even with the aid of transportation.

2. Of legal school age.

3. Capable of profiting from a formal educational program.

Boarding Home Program for Physically Handicapped Children

A physically handicapped child who resides in a school district which does not maintain a special education program suitable to meet his needs, may attend school in another school district where such a program is available.

When a physically handicapped child attends a special education class in a school district other than that of his residence, he may be boarded, if the distance from one district to the other is too far for daily transportation, and the cost of such board may be reimbursed if approved in advance by the Division of Special Education.

Criteria for Approval:

1. Availability of appropriate special education programs.
2. Travel distance involved.
3. Physical, mental, and social readiness of the child to adjust to a boarding home.
4. Availability of licensed boarding homes in the school district providing the special education programs.

The responsibility for finding boarding homes does not rest with the parents or school personnel. This responsibility is vested in the Ohio Department of Public Welfare.

Standard for Legal Dismissal from School Attendance

1. All dismissals shall be approved by the State Superintendent of Public Instruction within the standards adopted by the State Board of Education.
2. A child approved for dismissal in accordance with these standards cannot legally be admitted to the public schools of this state while the dismissal is in force.
3. A dismissal may be revoked by the State Superintendent upon receipt of a written request from the school district in which the child resides.
4. A dismissal may be revoked by the State Board of Education when good cause is shown.
5. All applications for dismissal shall be submitted in triplicate on forms developed by the Ohio Department of Education, and shall be signed by the superintendent of the district in which the child resides.
6. All applications shall carry the results of the psychological tests, and the name and position of the individual administering the test(s).
7. All children shall be evaluated by a qualified psychologist using individual intelligence scales, and shall include assessment of achievement, adjustment, adaptability, and other measures where appropriate.
8. All children must have been evaluated psychologically within the 6 month period prior to the date of application and shall have a medical evaluation within the 12 month period prior to the initial application for dismissal.
9. All applications shall be accompanied by a written report to substantiate that the child is not capable of profiting substantially from an appropriate public school educational program.

This report shall include all pertinent information relating to the child, and should include where appropriate:

A. results of trial placement in a program for the educable mentally retarded.

B. descriptions of the school's efforts to work with the child in an appropriate public school setting.

C. results of other evaluations.

10. No application for dismissal shall be submitted until the school indicates that the following procedures have been followed:

A. a committee shall be established to evaluate all pertinent information about the minor and make recommendations concerning the most advantageous placement possible.

B. the chairman of the committee shall have the responsibility for seeing that an opportunity for a conference is made available to the child's parent(s) or guardian(s) with school personnel having information pertinent to the school's recommendations.

C. parent(s) or guardian(s) may waive the opportunity for a conference provided that they are properly informed of this opportunity.

In some cases, there are factors other than intelligence and age, such as adjustment, achievement, or social adaptability, that should be considered. Complete information concerning such factors shall be submitted with the application.

The parent(s) or guardian(s) of any child determined by the State Superintendent of Public Instruction to be dismissed from public school attendance in accordance with these standards may request that the decision be reviewed in a fair and impartial manner by a committee appointed by the State Superintendent of Public Instruction.

Transportation and Reimbursement

Transportation may be approved for physically handicapped children attending a special class program approved by the Division of Special Education. It may be approved for those children attending a regular class in public and/or non-public school. Requests for transportation for less than 2 months duration shall not be approved.

Reimbursement for transportation is provided as follows:

For board owned or board operated vehicles - The Division of Special Education may approve for reimbursement the actual cost of transportation up to $3.00 per day per child, Average

Daily Membership, and one-half of the actual cost in excess of $3.00 per day for children being transported on a board owned or board operated vehicle.

For privately owned vehicles - The Division of Special Education may approve for reimbursement the actual cost of transportation up to $3.00 per day per child in Average Daily Membership and one-half of the actual cost in excess of $3.00 per day for children being transported on a privately owned vehicle.

For public transportation - The Division of Special Education may approve for reimbursement the actual cost of transportation up to $2.00 per day per child in Average Daily Membership and one-half of the actual cost in excess of $2.00 per day for children being transported by public transportation.

Reimbursement claims for transportation shall be submitted by August 1 of each year on the designated claim forms to the Division of Special Education.

SPECIAL EDUCATION REGIONAL RESOURCE CENTERS

Public Law 91-230, Title 6B, is the resource for funding of Special Education Regional Resource Centers. Center staff is available to assist school districts in the planning and programing for handicapped children. In addition, in-service training programs are conducted for special education teachers. Each center houses materials that may be reviewed by teachers as well as parents of handicapped children.

Contact the Special Education Regional Resource Center nearest you for further information.

OHIO DEPARTMENT OF MENTAL HEALTH AND MENTAL RETARDATION

DIVISION OF MENTAL RETARDATION AND DEVELOPMENTAL DISABILITIES

The Division was established by statute as the agency responsible for the promotion of comprehensive statewide programs and services for mentally retarded individuals and their families, and for administrative leadership for statewide services which are wholly or partially financed by the Department of Mental Health and Mental Retardation. These services may include pre-school and school-age classes, adult activities, sheltered workshops and residential care.

The Division has established eleven districts and twelve district offices throughout the state. These offices are the primary resource for assistance in obtaining information and referral to the service program specifically required by the developmentally disabled individual, parent, and/or guardian. The district office is responsible for the intake and release of an individual from a state owned, operated or financed residential facility. This includes care in the state institutes.

Services provided by the district offices extend to determining and locating the appropriate care as well as counseling individuals and their families and coordinating community resources in providing appropriate specialized care. Specific services include assisting an individual in obtaining financial assistance, housing, educational, vocational, recreational, and medical assistance.

In addition, the Division has established a statewide network of Protective Client Services. The Division may, through the probate courts, be appointed guardian, trustee, or protector of a disabled individual, or upon application, assume the duties of protector without court action. Parents or guardians may nominate the Division to become protector, successor guardian, or trustee of the disabled person during a crisis period or upon the death or disability of the parent or guardian.

Contact your Division of Mental Retardation and Developmental Disabilities district offices for more information or the state department office.

Mr. William Parks

Phone: 614-466-7480

OHIO DEPARTMENT OF PUBLIC HEALTH

BUREAU OF CRIPPLED CHILDREN'S SERVICES

The primary purpose of the Bureau of Crippled Children's Services is to assist a handicapped child in receiving medical diagnosis and treatment. These services include:

1. Orthopedic - congenital and acquired,
2. Plastic - congenital and acquired,
3. Cardiac - for diagnosis and surgery,
4. Congenital and anomalies amenable to surgery,
5. Hearing defects which can be corrected or improved by surgery,
6. Selected neurosurgical or urological conditions, and usually those closely related to an orthopedic case.

Exceptions can be made at the discretion of the Medical Director. Nursing consultants and medical social consultants provide consultation and guidance for local public health departments, local welfare agencies, professional personnel, suppliers, and public and private agencies.

Children with a handicap are eligible from birth to age 21. The diagnosis must be one for which the Bureau will provide assistance. No specific level of intelligence is required, but it must be reasonably certain that a recommended procedure will help the child's adjustment to life. Financial eligibility is determined by the state agency. The family must live in Ohio and be unable to pay all, or part, of the cost of the treatment. Families are expected to contribute to the extent of their financial ability, as well as hospital and medical insurance coverage.

Any person who has knowledge of a handicapped child in need of assistance should report this fact to the local public health agencies.

Contact your County Health Department for more information.

OHIO DEPARTMENT OF PUBLIC WELFARE

The Department of Public Welfare is responsible for many programs and has classified them into two Divisions for administrative organization. These are the Division of Income Maintenance and the Division of Social Services. The program and services are provided through the local County Welfare Department systems.

DIVISION OF INCOME MAINTENANCE

The Division of Income Maintenance provides:

Payment for medical care rendered by individuals appropriately licensed by the state in their field of practice.

Payment for dental services of all types except orthodontia.

Payment for visual care services.

Payment of inpatient hospital services.

Payment of outpatient services including clinics, diagnostic treatment centers, and ambulatory clinics and emergency services.

Payment for skilled and intermediate nursing home care.

Payment of home health nursing services by agencies approved by the Ohio Department of Health.

Payment for most drugs and medical supplies

Payment for authorized ambulance and ambulate services. Under certain circumstances unauthorized emergency ambulance services will be covered.

Eligibility for these services is a function of the county welfare department as outlined by the Public Assistance Manual. Applications may be made to the County Welfare Department in the county where the applicant resides.

DIVISION OF SOCIAL SERVICES

Social Services are programs which are designed to help people deal with the major problems of living and enable those who are receiving some type of financial assistance to become more self-supporting. The services encompass such areas as helping people find jobs, providing day care for children, homemaker services, home management, vocational training, family planning, consumer education, foster care, protective services, health, legal aid, adoption, and housing services.

Anyone may obtain information concerning whether a particular service is available by contacting their county welfare department, usually listed in the phone book under "County Government Offices". These offices will be able to refer you to public and private providers of the social services in your community, for they are familiar with all the services that may be offered by the city, county, state, and federal government.

A person who might receive, is presently receiving, or has received financial assistance may qualify for social services free of charge, or at a reduced cost. Each applicant for services is considered based on his individual needs as they fit the eligibility requirements. To find out whether your needs can be met, call and explain your needs to the people in the Division of Social Services connected with your County Welfare Department. They will determine your eligibility for the services you want, and may also be helpful in assigning trained persons to work with you in finding the right services for your problem.

The Welfare Department also offers services and information for the aged. The extent of services vary by community. Your County Welfare Department can direct you as to what services may be found locally in your area. The Welfare office can also help determine your eligibility for such service.

The 18 services and their definitions offered through the Department of Public Welfare, which may be offered in your county are listed below.

1. Chore Services: This means the performance of household tasks, essential shopping, simple household repairs and other light work necessary to enable an individual to remain in his own home when he is unable to perform such tasks himself and they do not require the services of a trained homemaker or other specialist.

2. Day Care Service for Adults: This means personal care during the day in a protective setting approved by the state or local agency.

3. Day Care Services for Children: This means care of a child for a portion of the day, but less than 24 hours, in his own home by a responsible person or outside his home in a day care facility. Such care must be for the purpose of enabling the caretaker relatives to participate in employment or training, or because of the death, continued absence from the home, or incapacity of the child's mother and the inability of any member of such child's family to provide

adequate and necessary care and supervision for such child. Day care may also be provided, when appropriate, for eligible children who are mentally retarded. In-home care must meet state agency standards that, as a minimum, include requirements with respect to the responsible person's capacity and available time to properly care for children, minimum and maximum hours to be allowed per 24 hour day for such care, maximum number of children that may be cared for in the home at any one time, and proper feeding and health care of the children. Day care facilities used for the care of children must be licensed by the State or approved as meeting the standards for such licensing and day care facilities and services must comply with such standards as may be prescribed.

4. Educational Services: This means helping individuals to secure educational training, most appropriate to their capacities, from available community resources at no cost to the agency.

5. Employment Services for the Blind or Disabled: This means enabling individuals to secure paid employment, or training leading to such employment, through vocational, educational, social, and psychological diagnostic assessments to determine potential for job training or employment; and through helping them to obtain vocational education or training at no cost to the agency.

6. Family Planning Services: This means social, educational, and medical services to enable individuals, including minors who can be considered to be sexually active, to limit, voluntarily, the family size, or space the children, and to prevent or reduce the incidence of births out of wedlock. Such services include printed materials, group discussions, and individual interviews which provide information about and discussion of family planning, medical contraceptive services and supplies, and help in utilizing medical and educational resources available in the community. Such services must be offered and be provided promptly, directly or under arrangements with others, to all eligible individuals voluntarily requesting them.

For adult services, this means social and educational services and help in securing medical services to enable individuals to limit, voluntarily, the family size or space the children, and to prevent or reduce the incidence of births out of wedlock. Such services include printed materials, group discussions, individual interviews which provide information about and discussions of family planning and help in utilizing medical and educational resources available in the community.

7. Foster Care Services for Adults: This means placement of an adult in a substitute home which is suitable to his needs, supervision of such home, and periodic review of the placement at least annually to determine its continued appropriateness. Foster care services do not include activities of the home in providing care or services of the individual during the period of his placement in the home.

8. Foster Care Services for Children: This means (i) placement of a child in a foster family home, or appropriate group care facility at the option of the State, or at the request of the legal guardian;

(ii) services needed by such child while awaiting placement; (iii) supervision of the care of such child in foster care and of the foster care home facility, to assure appropriate care; (iv) counseling with the parent or other responsible relative to improve home conditions and enable such child to return to his own home or the home of another relative as soon as feasible; and (v) periodic review of the placement, at least annually, to determine its continuing appropriateness. Foster care services do not include activities of the foster care home or facility in providing care or supervision of the child during the period of placement of the child in the home or facility. A foster care home or facility used for care of children must be licensed by the State in which it is situated or have been approved by the agency of such State responsible for licensing homes or facilities of this type as meeting the standards established for such licensing.

9. Health Related Services: This means helping individuals and families to identify health needs and to secure needed health services available under medicaid, medicare and child health programs, handicapped children's programs, or other agency health services programs and from other public or private agencies or providers of health services; planning as appropriate with the individuals and health providers to help assure continuity of treatment and carrying out of health recommendations; and helping such individual to secure admission to medical institutions and other health related facilities.

10. Home Delivered or Congregate Meals: This means the preparation and delivery of hot meals to an individual in his home or in a central dining facility as necessary to prevent institutionalization or malnutrition.

11. Homemaker Services: For family services, this means care of individuals in their own homes, and helping individuals or caretaker relatives to achieve adequate household and family management through the services of a trained and supervised homemaker.

For adult services, this means care of individuals in their own homes, and helping individuals in maintaining, strengthening, and safeguarding their functioning in the home through the services of a trained and supervised homemaker.

12. Home Management and Other Functional Educational Services: This means formal or informal instruction and training in management of household budgets, maintenance and care of the home, preparation of food, nutrition, consumer education, child rearing, and health maintenance.

13. Housing Improvement Services: This means helping families and individuals to obtain adequate housing. Housing and relocation costs, including construction, renovation or repair; moving of families or individuals, rent deposits, and home purchase, may not be claimed as service costs.

14. Legal Services: This means the services of a lawyer in solving legal problems of eligible individuals to the extent necessary to obtain or retain employment. This excludes all legal services, in-

cluding fee generating cases, criminal cases, class actions, community organization, lobbying, and political action.

15. Protective Services for Children: This means responding to instances and substantiating the evidence of neglect, abuse, or exploitation of a child; helping parents to recognize the causes thereof and strengthening, through arrangement of one or more of the services included in the State plan, parental ability to provide acceptable care; or, if that is not possible, bringing the situation to the attention of appropriate courts or law enforcement agencies and furnishing relevant data.

16. Protective Services for Adults: This means identifying and helping to correct hazardous living conditions or situations of an individual who is unable to protect or care for himself.

17. Special Services for the Blind: This means helping to alleviate the handicapping effects of blindness through training in mobility, personal care, home management and communication skills, special aids and appliances; special counseling for caretakers of blind children and adults; and help in securing talking book machines.

18. Transportation Services: This means transportation necessary to travel to and from community facilities or resources for receipt of mandatory or optional services.

Contact your local County Welfare Department for more information.

OHIO BUREAU OF EMPLOYMENT SERVICES

The main goal of the Ohio Bureau of Employment Services is to bring job opportunities to all employable people in the communities of Ohio. They offer such services and programs as testing and training programs, the Ohio Worker Training Program, Manpower Development and Training Program, placement, employment, counseling, and labor market information.

The Bureau of Employment Services places special emphasis on assisting the handicapped. There is no charge for any training or service provided by the Ohio Bureau of Employment Services.

Contact the employment office nearest you for further information regarding job training and placement.

REHABILITATION SERVICES COMMISSION

The Rehabilitation Services Commission is a state administered, nonprofit organization which includes the Bureau of Vocational Rehabilitation (BVR) and the Bureau of Services for the Blind (BSB). BSB serves those who are blind or visually impaired and BVR serves persons with any other disabling condition. These Bureaus design a rehabilitation program for the sole purpose of preparing the individual to engage in employment, and are designed to specifically meet the many services which include medical, vocational, and psychological evaluations to determine the individual's maximum abilities and interests; counseling and vocational training to help provide a needed skill necessary for a job; maintenance payments to cover the individual's basic living expenses while in training and transportation during training for a client who cannot financially afford it; and placement and follow-up which completes the counseling and guidance provided throughout the rehabilitation services.

Eligibility requirements are as follows:

1. There must be identifiable evidence of a physical or mental disability.

2. The disability is a substantial handicap for securing or retaining employment.

3. There is a reasonable expectation that the individual may become gainfully employed as a result of vocational rehabilitation services.

There is no fee for services. Some services, such as attending college, certain medical services, maintenance, etc., are based on financial need. Recipients may be by self-referral or may be referred through doctors, friends, organizations, hospitals, schools, and any others.

Contact the office in your area for more information.

COUNTY AGENCIES AND SERVICES

COUNTY BOARD OF MENTAL RETARDATION (169 BOARD)

Each county in the State of Ohio has, by statute, a Board of Mental Retardation. The boards are charged with the provision of community classes, developmental classes, adult activity centers and sheltered workshops for mentally retarded persons in the community who are either ineligible for enrollment in the public schools because of mental deficiency or are unemployable because of mental deficiency to such a degree that special training is necessary. If service is needed by a mentally retarded person, and it is not being received, the board office of the program in your county should be contacted. Please also feel free to contact the board President for further assistance.

Fifty-one of the eighty-eight counties in the State have a Community Mental Health and Mental Health and Mental Retardation Board (648 Boards). These boards are responsible for leadership, establishment of standards, and financial support of mental health and mental retardation programs in the community. This is an additional resource for obtaining information regarding local programs for developmentally disabled persons.

Contact the Superintendent of the County Board of Mental Retardation for more information regarding these services. Please do not contact any of the programs operated by the 169 Board. These are listed only to inform you of their existence and location.

PRIVATE AGENCIES AND SERVICES

EPILEPSY ASSOCIATION OF OHIO

Recently, the Epilepsy Association of Ohio was founded. The organization's purpose is to serve as an advocate to those persons experiencing epilepsy and to assure proper education, medical, vocational training, and counseling, including employment. The association is an affiliate of Developmental Disabilities Resources, Inc. (formerly Ohio Developmental Disabilities, Inc.)

Contact the local association in your county for further information, or you may write to the state office:

Mr. Ronald J. Cutter, Executive Director
Epilepsy Association of Ohio
5310 E. Main St., Suite 204
Columbus, Ohio 43213
Phone: 614-866-4674

OHIO ASSOCIATION FOR RETARDED CITIZENS

The Ohio Association for Retarded Citizens is a non-profit volunteer agency representing all counties in the State of Ohio. The purpose of OARC is to endorse and actively support state and national legislation for further development and enhancement of health, welfare, education, and vocational services for all mentally retarded persons. The state office serves as a statewide resource center for information and public education of the various aspects of mental retardation. OARC staff assists in the development of local county organizations and services.

The local associations sponsor various programs for mentally retarded persons and families. Every county has an organization, with the exception of Brown and Fayette counties. The OARC office can provide further information regarding the organization and services in your county. Five of the state institutes have organized Parent Volunteer Associations that are very active in promoting and supporting better programs for mentally retarded persons.

OARC is an affiliate of Developmental Disabilities Resources, Inc. (formerly Ohio Developmental Disabilities, Inc.) and a member of the National Association for Retarded Citizens.

Contact the local association in your county for more information or you may write to the state office.

Mr. Robert Miller, Executive Director
Ohio Association for Retarded Citizens
8 E. Long St.
Columbus, Ohio 43215
Phone: 614-228-6689

DEVELOPMENTAL DISABILITIES RESOURCES, INC.

Developmental Disabilities Resources, Inc. (formerly Ohio Developmental Disabilities, Inc.) is a non-profit voluntary organization representative of the four handicapping conditions included in the Developmental Disabilities Act: autism, cerebral palsy, epilepsy, and mental retardation. The Board of Trustees includes three members from each of the affiliate organizations and three Trustees-at-large, as well as the President and immediate Past President of the Board of Trustees. The purpose of the organization is to encourage and assist with the implementation of programs and services for developmentally disabled persons on a state-wide basis.

Developmental Disabilities Resources, Inc. has received grants of state-wide significance from the Developmental Disabilities Planning and Advisory Council: one for Residential Services planning, one for the coordination of a State Advocacy Office, and a third for needs assessment and education on developmentally disabled offenders.

The Residential Services staff has completed a state-wide survey identifying the specific needs for residential facilities. This staff provides consultation to local, public, and private agencies who are planning, developing, and implementing residential units. Publications of this program include: Guidelines for the Establishment of a Community Group Home, Resource Guide - Services for Persons with a Developmental Disability, Community Living for Ohio's Developmentally Disabled Citizens, and A Technical Assistance Manual--Volumes I and II. The Residential Services staff provides technical assistance, free of charge, to communities in the planning, development and implementation stages of establishing community bases residential alternatives.

The Personal Advocacy program is of primary importance to the developmentally disabled individual. Personal Advocacy is a way in which interested citizen volunteers show their concern for the developmentally disabled by forming close personal relationships with them and helping them to realize their full potential as individuals. Many of the developmentally disabled persons are handicapped to such an extent that they cannot take care of their major needs or represent their own interests in society. Such handicapped individuals need advocates who can act for them in important functions, safeguard their rights, and make sure they receive all of the services and benefits to which they are entitled. An advocate, as a combination friend, counselor, and big brother or sister, can help a developmentally disabled individual develop and enjoy a fuller life.

To be most effective, the personal advocate must be affiliated with a local advocacy office which gives training and guidance. These offices are responsible for locating developmentally disabled persons needing help and potential advocates who want to serve, matching the two individuals on a one-to-one basis and monitoring the ongoing relationship to see that it remains satisfying and productive. Ohio has a State Advocacy Office whose staff provides consultation to local groups in the planning and development of Personal Advocacy programs. During 1973 and 1974, Ohio Developmental Disabilities, Inc. Personal Advocacy Program received grants from the Ohio Developmental Disabilities Planning and Advisory Council to provide monies for the initiation of several advocacy programs throughout the state.

For further information regarding the Advocacy, Residential Services, or Developmentally Disabled Offender projects, contact:

Mr. Robert Knable
Director of Residential Services
2238 South Hamilton Road, Suite 212
Columbus, Ohio 43227
Phone: 216-861-6476

OHIO SOCIETY FOR AUTISTIC CHILDREN

The Ohio Society for Autistic Children is an organization of parents, professionals, and other interested citizens working together to bring into being programs of legislation, education, and research for the benefit of all children with severe behavior disorders.

The Society believes that parents and friends of children with severe behavior disorders can and should be a strong and united group if they are to help their children most effectively.

The Society is the only state organization which exists solely to offer parents and interested citizens the opportunity to do something constructive for these puzzling children.

The Ohio Society for Autistic Children is an affiliate of Developmental Disabilities Resources, Inc. (formerly Ohio Developmental Disabilities, Inc.), and a member of the National Society for Autistic Children.

For further information regarding the Society, contact your local organization or:

Wayne Heidt, President
Ohio Society for Autistic Children
4554 Coe Avenue
North Olmsted, Ohio 44070
Phone: 216-777-4683

THE OHIO SOCIETY FOR CRIPPLED CHILDREN & ADULTS, INC.

The Ohio Society for Crippled Children & Adults, Inc. serves persons experiencing all types of crippling conditions. The agency also sponsors epilepsy clinics, speech and hearing clinics, and summer residential camps. Effort is also directed toward educating the public as to needs of crippled persons and to recruit young adults for careers in therapy.

Services are free to the medically indigent and a sliding fee scale is applied to all others. Services are not provided to blind or mentally retarded persons for whom other local funds are available.

You may also contact the regional office nearest you or the state society office for further information.

Mr. Karl Reiser, Executive Director
5 North Broadleigh, Box 6728
Columbus, Ohio 43209

Phone: 216-687-0134

UNITED CEREBRAL PALSY OF OHIO, INC.

The United Cerebral Palsy of Ohio, Inc. is a non-profit volunteer organization formed for the purpose of promoting the health and welfare of individuals experiencing the various effects of cerebral palsy. The state organization conducts a continuous public education program, provides assistance to local affiliates in the areas of community surveys, needs, program planning, development and expansion, supports state and local legislation affecting the cerebral palsied, and serves as a liaison agent between local affiliates.

The organization is financed by community subscriptions, grants and other subsidies. United Cerebral Palsy of Ohio, Inc. is an affiliate of the Ohio Developmental Disabilities, Inc.

For further information regarding United Cerebral Palsy, contact your local chapter or

Mr. Edward S. Lippitt, Executive Director
United Cerebral Palsy of Ohio, Inc.
1435 Third National Building
32 North Main Street
Dayton, Ohio 45402
Phone: 513-222-7093

CLINIC AND HEALTH SERVICES

There are many specialized clinics and health-care units throughout the state which can help the individual and his family. The services listed in this guide indicate what the identified agency provides. However, other services are available in each local community and may be located by referral from the ones listed in this guide.

Much of the data presented was obtained through the Bureau of Maternal and Child Health Care in the Ohio Department of Public Health. The Resources Directory of Health Services, and the Ohio's Health Commissioners and Local Health Departments directory are additional resources for information.

DENTAL CARE

The list of dentists who are willing to serve persons with a developmental disability was supplied by Edward Stearling, D.D.S., Chief of Pedodontics, Nisonger Center, The Ohio State University, and by local community agencies. Since dentists may need to limit their practice due to case loads and other factors, we have attempted to code these services.

Codes: Referring to types of patients dentists are willing to serve:

mr . . . . . Mental Retardation
cp . . . . . Cerebral Palsied
ep . . . . . Epileptic

Referring to the Dentists' specialty and type of practice:

G.P. . . . . . General Practitioner
Oral Surg. . Oral Surgeon
Ortho. . . . Orthodontics
Ped. . . . . Pedodontics
Per. . . . . Periodontics

Unfortunately, we were unable to complete our survey in time for this printing regarding the availability of dental care for autistic-like persons. We suggest you contact the dentist in your area to determine if it is available, or contact one of the members of the Academy of Dentistry for the Handicapped.

MEDICAL CARE

Concern has been expressed throughout the state, particularly by parents, regarding the inability to locate a physician and/or specialist who will care for a person with a developmental disability. The listing of physicians who are willing to serve this population was provided by the Bureau of Crippled Children's Services, Department of Public Welfare and by several County Boards of Mental Retardation.

Contact the local County Welfare Department or County Health Office for additional assistance or information in obtaining medical services.

COMMUNITY RESIDENTIAL ALTERNATIVES

Located in many communities throughout our state are homes and institutions which offer residential care for persons who cannot care for themselves or who may only need minimal supervised living. Such facilities, licensed by the Division of Mental Retardation and Developmental Disabilities, and Nursing Homes, licensed by the Department of Health, from which a response has been received that persons with a developmental disability are being served by the facility have been listed.

Contact the Division of Mental Retardation and Developmental Disabilities District Office for more information about the programs and services offered in those facilities licensed by them. Contact the Administrator of the Nursing Home in your area for more information regarding that facility.

A WORD ON INSURANCE PROVISIONS

In 1971, the General Assembly of Ohio passed S.B. 136 which provided that, effective January 1, 1972, as long as the family policy is "active", there will be continuation of coverage for the mentally retarded or physically handicapped dependent, regardless of age. This law applied to any newly issued, delivered, or renewed contract which provides coverage for the dependent. However, no company is required to insure a physically handicapped or mentally retarded person if he (she) does not meet the requirements for insurability. Proof of incapacity or dependence is to be furnished the insurance carrier within 31 days after the handicapped person has reached normal limiting age of his coverage under the subscriber's contract. Coverage is assured under the law until the dependent becomes self-supporting, marries, or overcomes his handicap. One must be aware that not all insurance companies will insure the handicapped.

Contact your local insurance companies for more information.

COUNTY BOARDS OF MENTAL HEALTH AND MENTAL RETARDATION

"648 BOARDS"

All of Ohio's counties are served by Boards of Mental Health and Mental Retardation, 648 Boards. These boards are responsible for leadership, establishment of standards, and financial support of mental health and mental retardation programs in the community. There are presently 53 of these boards throughout Ohio, many serving more than one county. The following listing is arranged by county, alphabetically. The administrator named in each entry is the Executive Director, unless otherwise noted specifically for a particular county.

CITY HEALTH DISTRICTS

In addition to the County Health Departments serving each of the counties in Ohio (listed as Public Health Departments under each county throughout this guide), many municipalities are also served by City Health District offices. These offices have been organized according to the service districts of Ohio, and then listed by county for your convenience in locating your City Health District office. If your county does not appear in this appendix, then it is served only by the County Health Department listed in the main body of this guide.
